Takane	Takane (all areas)	Mon./Thu.	First/Third Tuesday	Second/Fourth Tuesday

About the new garbage bag system

Since April 2015, residents of Gotemba City and Oyama Town will have their garbage collected under the same conditions and are to use common designated garbage bags made by the Gotemba City-Oyama Town Integrated Administration.

Garbage type Burnable garbage, non-burnable garbage

Price of designated garbage bags

For burnable/non-burnable garbage

Size of designated bags	45 ℓ	30 ℓ	20 ℓ
Selling price (set of 10 bags)	¥300	¥200	¥130
Price per bag	¥30	¥20	¥13

*Price includes consumption tax.

Under this system, the handling fee is included from the first garbage bag in accordance with the amount of garbage being put out for collection. Residents pay the handling fee when they purchase the designated garbage bags, the price of which includes part of the cost of disposing of the garbage.

Be sure to write your name on each designated garbage bag

Garbage bags without the name of the disposer written on them have not been collected in Gotemba City since April 1, 2004.

By writing your name on each designated garbage bag, you are taking responsibility for the garbage you put out for collection.

As a general rule, **you are required to write your full name** on each garbage bag, but the name may be replaced with your household number, store name, or apartment building name and room number if this is mutually agreed among the users of your local garbage collection site.

なまえ

Write your full name clearly using a permanent marker.

Dangerous garbage

Collected twice a month at local collection sites

Rules for sorting and putting out dangerous garbage

1. Use up the contents of containers as much as possible. (Items will be collected even if some contents remain.)

Cigarette lighters

*Place in a transparent bag somewhere noticeable at the garbage collection site.

Disposable cigarette lighters

Spray Cans

*Do not open holes in cans.

Spray cans
Cassette-type gas cylinders,
gas cylinders for camping

Recyclable bottles/food or drink cans

Collected twice a month
at local collection sites

Designated container (green)

Bottles

- Please remove bottle caps.
- Please empty the bottle and rinse lightly.
- Glassware such as drinking glasses is **"non-burnable garbage."**

○ Drink bottles

Juice/soft drinks
Energy drinks

○ Food/
condiment bottles

Olive oil bottles, coffee bottles,
soy sauce bottles, salad dressing
bottles, wine/sake bottles,
medicine bottles

○ Cosmetics bottles
(glass bottles except
opaque bottles)

Toner, milky lotion

Non-recyclable bottles

Glassware (e.g., vases), bottles that are not empty, dirty bottles, and bottles used for pesticides and chemicals should be disposed of as **"non-burnable garbage."**

Remember!

Metal lids and caps should be disposed of as **"non-burnable garbage"** and plastic lids and caps should be disposed of as **"burnable garbage"**. If the lids/caps cannot be removed completely, the bottles can be disposed of as-is. Broken or cracked bottles can be recycled if they retain much of their original shape.

Cans

(food or drink cans)

- Please empty the can and rinse lightly.
- Spray cans and gas cylinders (cartridge type) should be disposed of as **"dangerous garbage."**
- Rusty or dirty cans and cans other than food or drink cans such as paint cans should be disposed of as **"non-burnable garbage."**

○ Food, drinks (including liquid medicine)

Juice/soft drink cans, beer cans,
powdered milk cans, snack cans

○ Cooking oil cans

(up to 1.8 ℓ)

○ Food cans
(Including pet food cans)

Non-recyclable cans

Paint cans, cans that are not empty, cans used for chemicals, rusty or dirty cans, automotive oil cans

Remember!

The lids of food and snack cans can be disposed of as "recyclables."

Recyclable metal

Collected twice a month
at local collection sites

Designated container (brown)

Types of metal

- Large items (that cannot be put into a designated garbage bag) should be personally delivered to the disposal facility as **"bulky garbage."** However, long, thin items such as pipes can be disposed of as **"metal"** by cutting them up to make them shorter than 1.5 meters.

○ Items entirely or mostly made of metal:
pots, kettles, frying
pans, bowls, wire
clothes hangers, etc.

Pots

Bowls

Kettles

Frying pans

Wire clothes hangers

Gas cookers

Heaters

Fan heaters

Shorter than
1.5 meters.

Metal pipes

Remember!

Please dispose of steel items such as hammers and crowbars as **"metal."** Small metal items (clips, pushpins, nails, needles, etc.) and dangerous items such as scissors knives and cutter blades should be wrapped in paper and disposed of as **"non-burnable garbage."**

Non-recyclable metal

Rusty or dirty items

Recyclable waste paper

Collected twice a month
at local collection sites

*Waste paper can also be collected
by a recyclable materials collector
or private operator.

Rules for sorting and putting out waste paper

- Please do not put out waste paper on rainy days; wait for the next collection day.
- Waste paper is grouped into the following 4 categories and recycled for different purposes depending on the category. Please separate waste paper according to category and tie securely into bundles with paper string.

Newspaper/ advertising inserts

- Please put newspapers and advertising inserts together.
- Never mix magazines together with newspaper/advertising inserts.

Magazines

- Magazines include weekly magazines, catalogs, hardcover books, paperback books, textbooks, etc.

*Please remove any CDs, DVDs, or cosmetics that come with the magazines. There is no need to remove staples

Miscellaneous paper

- Put miscellaneous paper in a paper bag.
(Please do not put items other than miscellaneous paper in the bag.)
- Bind the bag with string.
- Miscellaneous paper can also be put between magazines if the amount is small.

It's OK to put miscellaneous
paper between magazines!

Cardboard

- Please remove as much of the adhesive tape as possible.
- Be sure to fold and bind cardboard.

A large amount of recyclable waste paper is often found in garbage put out as burnable garbage.

If you find someone taking recyclable materials from the collection sites, do not try to handle the situation yourself. Please contact the Recycling Promotion Division (TEL: 0550-88-0530).

Recyclable small electrical appliances

Items containing
no personal
information

Collected twice a
month at local
collection sites

Items containing
personal
information

Collected at
collection stations

Small electrical appliances

Points to remember about all small electric appliances

- Electric appliances that are powered by dry cells or from an outlet are called small electric appliances in general.
- Please remove the cardboard or plastic bags used for packing in advance.
- Dry cells should be removed and disposed of as **Harmful Garbage**.
- Rechargeable batteries and button batteries must not be put out for collection at local collection sites.

Remember!

- Electric carpets, electric blankets, dehumidifiers, large massagers: **"bulky garbage"**
- Four kinds of electric appliances: TVs, air conditioners, refrigerators (freezers), and washing machines (clothes dryers)
- Appliances used by business offices and stores are classified as industrial waste and are not collected by the city.

○ Collection at local collection sites

Collection is carried out at the local collection sites twice a month. Please use the designated container.

- Large items that cannot be put into a 45 ℓ designated garbage bag should be personally delivered to the disposal facility as "bulky garbage."
- Please take items containing personal information such as personal computers to a collection station.

○ Collection at collection stations

- Please make sure data is completely deleted from items containing personal information.
- Only items that can be dropped into a collection box (opening is 30 cm wide x 15 cm high) can be disposed of using this method.
- Collection stations cannot be used outside operating hours. Do not leave garbage at the collection stations without permission outside operating hours.

- Please put your garbage into the containers yourself.

Recyclables

PET bottles

Collected twice a month at local collection sites

PET bottles Trays

Collected at collection stations

PET Bottles

Put PET bottles in the designated net and put out for collection at your local collection site or take to a collection station.
Items with the PET bottle mark  are eligible for collection using this method.

○ Collection at local collection sites

Collection is carried out at local collection sites twice a month. Please put PET bottles in the designated net.

- Rinse the inside of bottles and remove the caps and labels before disposal.
- Dirty PET bottles should be disposed of as **"burnable garbage."**

○ Collection at collection stations

Please dispose of PET bottles while the designated stores/facilities are open.

- Rinse the inside of bottles and remove the caps and labels before disposal.
- Dirty PET bottles should be disposed of as **"burnable garbage."**

Trays

Items with the tray mark  are eligible for collection using this method.

Items without the mark are also eligible if they can be easily pierced with a toothpick.

○ Collection at collection stations

Please dispose of PET bottles while the designated stores/facilities are open.

- Rinse trays lightly before disposal. Colored trays are also accepted.
- Dirty trays should be disposed of as **"burnable garbage."**

○ Items that cannot be collected

- Items with a silver surface
- Cup noodle (instant noodle) containers

Recyclable styrofoam

Styrofoam

- Please empty styrofoam containers.
- Please remove the packaging tape and labels.
- Styrofoam containers can be disposed of as **"burnable garbage"**, but please take to **collection stations** as far as possible.

Designated container

Collected at collection stations

Collection method

Please put styrofoam containers in the designated container located on the southern side of the Recycling Promotion Division.

Collection station location: 1446-9 Kawashimata, Gotemba City

Collection times

Monday-Friday (except holidays) 8:30 – 16:30

*Do not leave garbage without permission outside operating hours.

Access to the Recycling Promotion Division

Harasato Elementary School, Sengen Shrine, Yuzawa Daira Park, Harasato Junior High School, Hiyoshi Shrine, To Tokyo, To Numazu, Kawashimata, 246, Harasato-shi-mae, To Itazuma, Recycling Promotion Division

Recyclable used clothing/textiles

Collected at collection stations by private operators

Used clothing/textiles

- Place in the collection box.

- Items that are dirty, wet, or smelly are not eligible for collection using this method.
- Leather bags and sneakers/leather shoes (as pairs) can be put into the collection box.
- Used clothing/textiles can also be cut into pieces smaller than 1-meter squares and disposed of as **"burnable garbage."**
- Used clothing/textiles collection stations are available at the following stores/facilities.

Note 1: Depending on the collection station, items that can be accepted and collection times may be limited.

Burnable garbage

Collected twice a week
at local collection sites

Rules for sorting and putting out burnable garbage

1. Put garbage in the designated bag for burnable garbage and tie the bag with a knot before disposal.
2. Items that stick out of the tied designated bag or make the bag unable to be tied should be disposed of as "bulky garbage."

○ Paper waste

Non-recyclable paper such as tissue paper, thermal paper, carbon paper, and paper diapers (remove any soiling)

* **Miscellaneous paper** should be separated and disposed of as **recyclables**.

○ Plastics

Plastic products, cup noodle (instant noodle) containers, plastic buckets, plastic bags, toys, stationery, toiletry items, cushions, pillows, packaging tape, videotapes, stuffed toys (clean stuffed toys can also be disposed of as used clothing/used textiles)

* **Videos and cassette tapes** should be disposed of as **"burnable garbage."**

* See Page 5 for information on disposing PET bottles and trays.

○ Kitchen waste

Vegetable waste, fruit waste, food leftovers, seafood waste

* **Drain waste well**

○ Leather/rubber

Satchels, belts, slippers, rubber boots, rubber gloves, cotton work gloves, soiled bags/sneakers/leather gloves

○ Soiled used clothing/textiles

Underwear, used clothing, floor cushions, carpets, blankets
(cut into pieces smaller than 1-meter squares)

* Used clothes and textiles are valuable resources. Please utilize the collection stations shown on Page 6 or recyclable material collectors to dispose of used clothes and textiles that can be recycled.

* Down quilts can be put out for collection as "burnable garbage" if they can be put in a bag.

○ Wood waste, leaves/grass

A large amount of wood waste (pruned branches, etc.) should be delivered personally to the incineration center (with charge). The city provides designated bags for volunteers for resident groups cleaning up fallen leaves from alongside roads.

Non-burnable garbage

Collected twice a month at local collection sites

Rules for sorting and putting out non-burnable garbage

1. Put garbage in the designated bag for non-burnable garbage and tie the bag with a knot before disposal.
2. Items that stick out of the tied designated bag or make the bag unable to be tied should be disposed of as "bulky garbage."

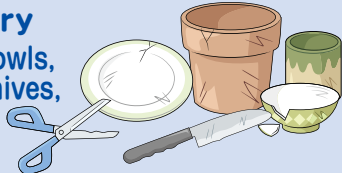

Designated bag for non-burnable garbage.

○ Glass/ceramics/cutlery/small metal items, etc.

Broken items, objects with a sharp edge, and small metal items **should be wrapped in paper**.

○ Ceramics/cutlery

Flower pots, rice bowls, tea cups, dishes, knives, scissors

○ Small metal items

Clips, pushpins, nails, needles, key rings

Wrap in paper before disposal.

○ Glass

Mirrors, cups, vases, light bulbs other than fluorescent tubes, broken fluorescent tubes

○ Mixed garbage difficult to separate from burnable garbage

Umbrellas, miniature cars, disposable heating pads, electric pots, staplers

○ Rusty or dirty metal

Fish broilers, grills

○ Rusty or dirty cans, cans used for materials other than food or drink such as paint and chemicals

Paint cans, oil cans, etc.

*Please use cloth to absorb the contents of cans and dispose of the cloth as "burnable garbage."

Harmful garbage

Dry cells batteries
Thermometers
(containing mercury)

Collected twice a month at local collection sites

Fluorescent tubes

Collected at collection stations

Dry cell batteries

- Please put dry cell batteries in a bag that enables its contents to be seen (do not put them in the designated garbage bag) and put them out for collection on the day for "harmful garbage" collection.
- Please put dry cell batteries in a separate bag from thermometers.
- Button batteries (containing mercury) and small rechargeable batteries should be disposed of as "items that are difficult to dispose of".

Thermometers (containing mercury)

- Mercury thermometers, mercury sphygmomanometers, etc.
- Please put thermometers in a bag that enables its contents to be seen (do not put them in the designated garbage bag) and put them out for collection on the day for "harmful garbage" collection.
- Please put thermometers in a separate bag from dry cell batteries.

Fluorescent tubes

Fluorescent tubes eligible for collection

- Bulb type fluorescent lights
- Circular fluorescent tubes
- Straight fluorescent tubes (up to 40W)

Collection stations with collection boxes for used fluorescent tubes

The partner stores and public facilities shown below serve as collection stations for collecting used fluorescent tubes from households for recycling.

Remember!

- Only used fluorescent tubes from households are eligible for collection using this method.
- Fluorescent tubes from business offices or stores are classified as industrial waste and are not collected by the city.
- Broken fluorescent tubes are classified as "Non-Burnable Garbage."
- Do not leave fluorescent tubes at stores/facilities while they are closed.
(Such acts are subject to punishment as illegal dumping.)

Access to facilities that accept personal garbage delivery

Burnable garbage

Gotemba City-Oyama Town Regional Administrative Association Incineration Center

Location: 862-15 Itazuma, Gotemba City

Operating days: Monday-Saturday (except holidays)

Operating hours: Weekdays 8:30-12:00 13:00-16:30
Saturdays 8:30-11:45

Disposal fee: 40 yen/10 kg

*Garbage put in the designated bag is accepted free of charge.

Inquiries: TEL 0550-88-3776

Bulky garbage/non-burnable garbage/recyclables

Gotemba City-Oyama Town Regional Administrative Association Recycling Center

Location: 2536-23 Jinba, Gotemba City

Operating days: Monday-Saturday (except holidays)

Operating hours: Weekdays 8:30-12:00 13:00-16:30
Saturdays 8:30-11:45

Disposal fee: 200 yen/10 kg

*Additional fees may apply to some items.

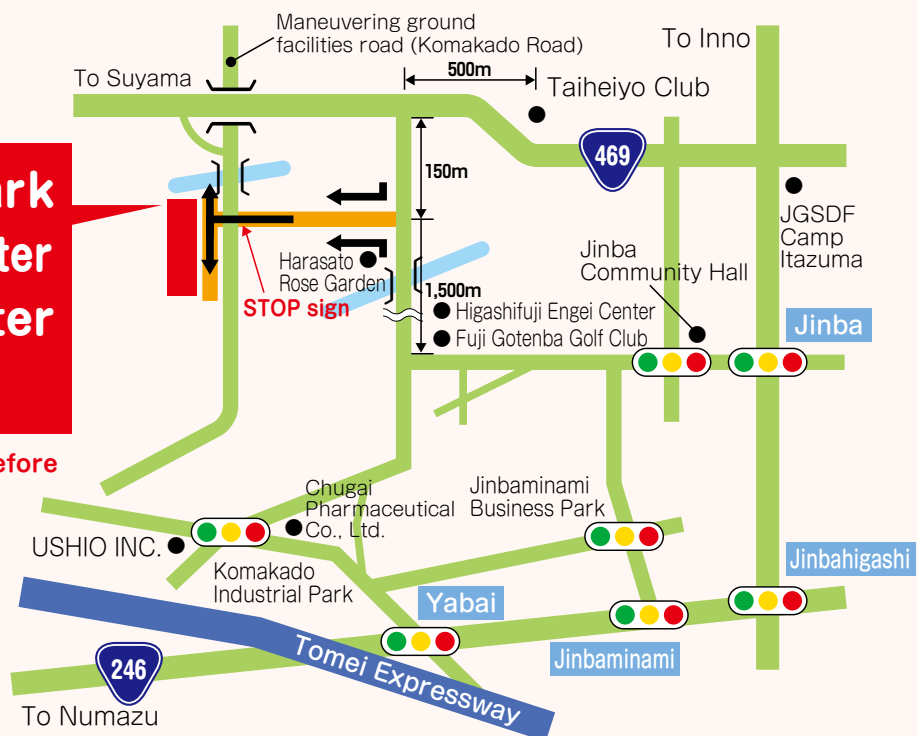

Inquiries: TEL 0550-88-3776

Facilities Guide

**Mt. Fuji Eco Park
Incineration Center
Recycling Center
Landfill site**

*Please make sure to stop before crossing Komakado Road.
